First Name: Harry

Last Name: S.

Country: United States

Information Request or Suggestions:

I brought the Rockler 3 and one plan for the baby crib; I am about to modified the spindles with straight pieces. **I cannot get them to look decent (like yours)** and I tried making the tenon without joy.

Hi Harry,

Thanks for visiting my website!

Where are you located? If you are close, I can make you a jig to build the spindles.

Sorry that you are having trouble. Maybe I can help.

Jim:

Make me the spindle jig. I will send payment through pay pal.

Hi Jim:

I finished making all the slats. Experienced some tear out, but I made enough to compensate for my mistake.

How do they look?

Harry

Hi Harry,

You caught me off-guard.

The pictures look great! You should be very proud of yourself!

I had to cry with joy, that with the correct jigs, nearly anyone can be a professional woodworker.
