Update 10 days after receiving plans

I made my **FIRST** Mortise and Tenon joint today using the jigs. 100% perfect first time - exact 90-degree joint. **I am very impressed!**

Thanks, *Dave Robinson*

Update First Project Pictures Using the M&T Jigs

Hi Jim

The carcass of the table is finished. I now have to make the draws and cut the mortise and tenons for the shelves - thought you might like a picture. The mortise jig can be seen in the background. Thanks again, *Dave Robinson*

Notice the Precise Joints on First Try!
