Another Project - Legs for a Chest

Having fun with your mortise jig design. I was working last night on some legs for a chest project I am doing. Everything I milled on the legs was done using the jig. **I am very happy with the results.** I have attached a couple of pictures of the results using your designed jig.

Thanks, *Scott Metzler - Port Angeles, WA*

Notice the Precise Joints on First Try!

Here is a picture of the Jig cutting the Joints.

The Mortise Jig works perfectly every time!
